

# Instructions: Alchemy Reactions Kit

Warm  
Glass

## Your kit contains:

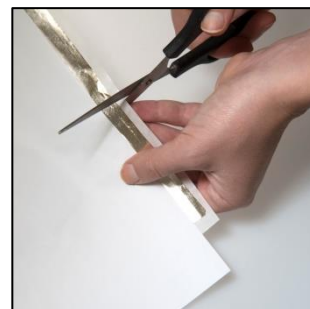

- 4 x 3mm Bullseye French Vanilla (10cm x 10cm)
- 2 x 3mm Bullseye Alchemy Clear Silver to Bronze (10cm x 10cm)
- 2 x 3mm Bullseye Alchemy Clear Silver to Gold (10cm x 10cm)
- Silver Foil from Bullseye
- 16 x Small Bumper Stops

## You may also need...

- Glass Cleaner
- Scissors
- Kiln & Kiln Shelf
- Bullseye Glastac Fusing Glue
- Tweezers

## Instructions:

1. Clean the glass thoroughly with glass cleaner.
2. Between two pieces of paper, use scissors to cut the silver to a 10cm wide strip.
3. Keeping the silver between the paper tear it into approximately 1cm wide strips.
4. Using tweezers carefully stick the torn silver strips to the French Vanilla bases. **Note: Using the pink Glastac Fusing Glue is best for this!**
5. Make sure the silver is not sticking out beyond the edge of the glass. This could contaminate your kiln shelf.
6. Place the Alchemy glass on top of each coaster and fire using this schedule:
7. Affix a bumper stop to each corner of the underside of your coasters (they are self-adhesive).

Runtime: 12hrs	Rate (°/hr)	Temperature	Hold
Segment 1	222°C/hr	663°C	1 hour
Segment 2	333°C/hr	804°C	10 min
Segment 3	999°C/hr	482°C	1 hour
Segment 4	56°C/hr	371°C	End
