Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 - United Kingdom (UK)

SAFETY DATA SHEET

GRADE C

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier | |
|----------------------------------|-----------------------------------|
| Product name | : GRADE C |
| | Not available. |
| Product type | : Solid. [Wire/Bar, Massive form] |
| Other means of identification | : Not available. |

1.2 Relevant identified uses of the substance or mixture and uses advised against

Not applicable.

1.3 Details of the supplier of the safety data sheet

AIM 9100 Henri Bourassa East Montreal, QC H1E 2S4 (514) 494-2000

AIM Solder UK LTD Unit 2/3 Sedgewick Road North Luton Industrial Estate Luton LU4 9DT United Kingdom +44 (0) 1582 587210

e-mail address of person : S responsible for this SDS

: Safetydata@aimsolder.com

1.4 Emergency telephone number

National advisory body/Poison Center

| Telephone number | : INFOTRAC |
|------------------|-------------------------------|
| | Europe: 0800-181-29-24 |
| | International: (352) 323-3500 |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Repr. 1B, H360FD Lact., H362 STOT RE 2, H373

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

1/13

SECTION 2: Hazards identification

| Hazard pictograms | |
|---|--|
| Signal word | : Danger |
| Hazard statements | May damage fertility. May damage the unborn child. May cause harm to breast-fed children. May cause damage to organs through prolonged or repeated exposure. |
| Precautionary statements | |
| Prevention | : Obtain special instructions before use. Wear protective gloves, protective clothing and eye or face protection. Do not breathe dust. Avoid contact during pregnancy and while nursing. |
| Response | : Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. |
| Storage | : Store locked up. |
| Disposal | : Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : Restricted to professional users. |
| Special packaging requiren | ients |
| Containers to be fitted with child-resistant fastenings | : Not applicable. |
| Tactile warning of danger | : Not applicable. |
| 2.3 Other hazards | |
| Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII | : This mixture does not contain any substances that are assessed to be a PBT or a vPvB. |
| Other hazards which do not result in classification | : None known. |

SECTION 3: Composition/information on ingredients

| 3.2 Mixtures : | Mixture | | | |
|-------------------------|---|-----------------|---|---------|
| Product/ingredient name | Identifiers | % | Regulation (EC) No. 1272/2008 [CLP] | Туре |
| Lead Antimony | REACH #: 01-2119513221-59 EC: 231-100-4 CAS: 7439-92-1 Index: 082-001-00-6 EC: 231-146-5 CAS: 7440-36-0 | ≥50 - ≤75 ≤3 | Repr. 1B, H360FD Lact., H362 STOT RE 2, H373 Acute Tox. 4, H302 | [1] [2] |
| | | | See Section 16 for the full text of the H statements declared above. | |

SECTION 3: Composition/information on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

- [2] Substance with a workplace exposure limit
- [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] Substance of equivalent concern
- [6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

| Eye contact | elids. Check for and remov | lenty of water, occasionally lifting the upper and lower re any contact lenses. Continue to rinse for at least 10 on following exposure or if feeling unwell. |
|----------------------------|---|---|
| Inhalation | not breathing, if breathing is tificial respiration or oxygen erson providing aid to give m iconscious, place in recover | d keep at rest in a position comfortable for breathing. Firregular or if respiratory arrest occurs, provide by trained personnel. It may be dangerous to the nouth-to-mouth resuscitation. Get medical attention. If ry position and get medical attention immediately. Seen tight clothing such as a collar, tie, belt or |
| Skin contact | oes. Wash contaminated c ear gloves. Continue to rins | plenty of water. Remove contaminated clothing and clothing thoroughly with water before removing it, or e for at least 10 minutes. Get medical attention. Clean shoes thoroughly before reuse. |
| Ingestion | vallowed and the exposed p ink. Stop if the exposed per duce vomiting unless directe e head should be kept low s tention. Never give anything ace in recovery position and | Remove dentures if any. If material has been erson is conscious, give small quantities of water to rson feels sick as vomiting may be dangerous. Do not ed to do so by medical personnel. If vomiting occurs, so that vomit does not enter the lungs. Get medical g by mouth to an unconscious person. If unconscious, l get medical attention immediately. Maintain an open such as a collar, tie, belt or waistband. |
| Protection of first-aiders | suspected that fumes are s ask or self-contained breath | ving any personal risk or without suitable training. If it till present, the rescuer should wear an appropriate ing apparatus. It may be dangerous to the person -mouth resuscitation. Wash contaminated clothing emoving it, or wear gloves. |

4.2 Most important symptoms and effects, both acute and delayed

Over-exposure signs/symptoms Eye contact : No specific data. Inhalation : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations Skin contact : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations Ingestion : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 - United Kingdom (UK)

GRADE C

| SECTION 4: First aid measures | | | | |
|---|-----|---|--|--|
| 4.3 Indication of any immedia | ate | medical attention and special treatment needed | | |
| Notes to physician | : | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | | |
| Specific treatments | 1 | No specific treatment. | | |
| SECTION 5: Firefight | tin | g measures | | |
| 5.1 Extinguishing media | | | | |
| Suitable extinguishing media | : | Use an extinguishing agent suitable for the surrounding fire. | | |
| Unsuitable extinguishing media | : | None known. | | |
| 5.2 Special hazards arising f | ron | n the substance or mixture | | |
| Hazards from the substance or mixture | : | No specific fire or explosion hazard. | | |
| Hazardous combustion products | : | Decomposition products may include the following materials: metal oxide/oxides | | |
| 5.3 Advice for firefighters | | | | |
| Special protective actions for fire-fighters | 1 | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. | | |
| Special protective equipment for fire-fighters | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. | | |
| Additional information | : | No additional remark. | | |
| | | | | |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, pro | te | ctive equipment and emergency procedures |
|--------------------------------|-----|---|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| 6.2 Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| 6.3 Methods and materials for | r c | ontainment and cleaning up |
| Small spill | : | Move containers from spill area. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : | Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. |

Date of issue/Date of revision

SECTION 6: Accidental release measures

ŝ,

6.4 Reference to other sections

See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

| Protective measures | : Put on appropriate personal protective equipment (see Section 8). Avoid exposure - obtain special instructions before use. Avoid contact during pregnancy or while nursing. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional |

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

information on hygiene measures.

7.3 Specific end use(s) Recommendations

: Not available. : Not available.

Industrial sector specific solutions

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

8.1 Control parameters

Occupational exposure limits

| Product/ingredient name | Exposure limit values | |
|--|--|--|
| Lead Antimony | EH40/2005 WELs (United Kingdom (UK), 1/2020). TWA: 0.15 mg/m ³ 8 hours. EH40/2005 WELs (United Kingdom (UK), 1/2020). TWA: 0.5 mg/m ³ , (as Sb) 8 hours. | |
| procedures atmosphere or of the ventilatic protective equi the following: I the assessmen limit values and atmospheres - of exposure to (Workplace atr | contains ingredients with exposure limits, personal, workplace biological monitoring may be required to determine the effectiveness on or other control measures and/or the necessity to use respiratory pment. Reference should be made to monitoring standards, such as European Standard EN 689 (Workplace atmospheres - Guidance for at of exposure by inhalation to chemical agents for comparison with d measurement strategy) European Standard EN 14042 (Workplace Guide for the application and use of procedures for the assessment chemical and biological agents) European Standard EN 482 nospheres - General requirements for the performance of procedures ement of chemical agents) Reference to national guidance | |

SECTION 8: Exposure controls/personal protection

documents for methods for the determination of hazardous substances will also be required.

DNELs/DMELs

| Product/ingredient name | Туре | Exposure | Value | Population | Effects |
|-------------------------|------|-------------------------|------------------------|-----------------------|----------|
| Antimony | DNEL | Long term Inhalation | 0.1 mg/m ³ | General population | Local |
| | DNEL | Long term Inhalation | 0.5 mg/m³ | Workers | Local |
| | DNEL | Long term Oral | 140.8 mg/ kg bw/day | General population | Systemic |
| | DNEL | Long term Dermal | 140.8 mg/ kg bw/day | General population | Systemic |
| | DNEL | Long term Dermal | 234.7 mg/ kg bw/day | Workers | Systemic |

PNECs

No PNECs available.

| 8.2 Exposure controls | | |
|----------------------------------|---|---------------|
| Appropriate engineering controls | If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worke exposure to airborne contaminants below any recommended or statutory limits. | ər |
| Individual protection meas | <u>s</u> | |
| Hygiene measures | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working peri Appropriate techniques should be used to remove potentially contaminated cloth Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. | hing. |
| Eye/face protection | Safety eyewear complying with an approved standard should be used when a rist assessment indicates this is necessary to avoid exposure to liquid splashes, mis gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses w side-shields. | sts, |
| Skin protection | | |
| Hand protection | Chemical-resistant, impervious gloves complying with an approved standard she be worn at all times when handling chemical products if a risk assessment indic this is necessary. Considering the parameters specified by the glove manufactu check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting o several substances, the protection time of the gloves cannot be accurately estimated. | ates urer, |
| Body protection | Personal protective equipment for the body should be selected based on the tas being performed and the risks involved and should be approved by a specialist before handling this product. | ۶k |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. | ю |
| Respiratory protection | Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other import aspects of use. | |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation In some cases, fume scrubbers, filters or engineering modifications to the proce equipment will be necessary to reduce emissions to acceptable levels. | |
| | | |

SECTION 9: Physical and chemical properties

| 9.1 Information on basic physical | and chemical properties |
|---|---|
| <u>Appearance</u> | |
| Physical state | : Solid. [Wire/Bar, Massive form] |
| Color | : silver-grey |
| Odor | : not applicable. |
| Odor threshold | : Not available. |
| рН | Not available. |
| Melting point/freezing point | : 183°C |
| Initial boiling point and boiling range | : Not available. |
| Flash point | : [Product does not sustain combustion.] |
| Evaporation rate | : Not available. |
| Flammability (solid, gas) | : Massive metal is nonflammable. |
| Upper/lower flammability or explosive limits | : Not applicable. |
| Vapor pressure | : Not available. |
| Vapor density | : Not applicable. |
| Relative density | : 8.79 |
| Solubility(ies) | : Insoluble in the following materials: cold water, hot water, METHANOL, diethyl ether, n-octanol and acetone. |
| Partition coefficient: n-octanol/ water | : Not applicable. |
| Auto-ignition temperature | : Not applicable. |
| Decomposition temperature | : Not available. |
| Viscosity | : Not applicable. |
| Explosive properties | : Non-explosive in the presence of the following materials or conditions: open flames, sparks and static discharge, heat and shocks and mechanical impacts. |
| Oxidizing properties | : Not available. |
| 9.2 Other information | |
| Solubility in water | : Not available. |

No additional information.

SECTION 10: Stability and reactivity

| 10.1 Reactivity | 1 | No specific test data related to reactivity available for this product or its ingredients. |
|--|---|--|
| 10.2 Chemical stability | : | The product is stable. |
| 10.3 Possibility of hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur. |
| 10.4 Conditions to avoid | : | No specific data. |
| 10.5 Incompatible materials | : | No specific data. |
| 10.6 Hazardous decomposition products | : | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

| Product | |
|---------------------|--|
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste | : The classification of the product may meet the criteria for a hazardous waste. |
| Packaging | |
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. |
| Special precautions | This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

SECTION 14: Transport information
