

Print your own Decals

You upload it, we print it - Simple!

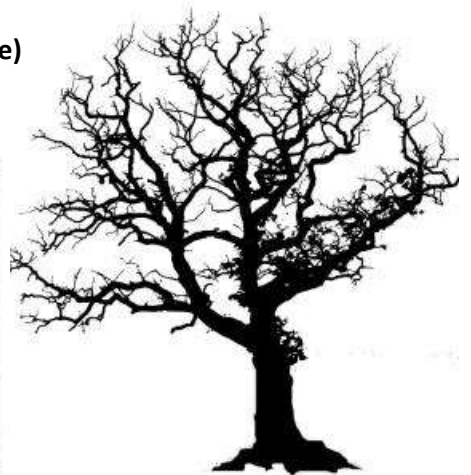

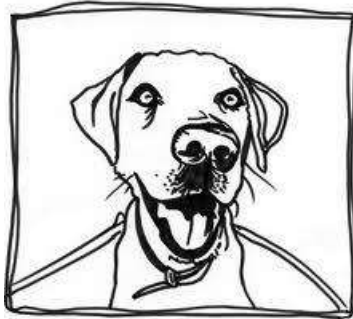

If you haven't got a compatible printer at home for the photo fusing paper we can now print your decals for you. Just look for Print your own Decals on the Warm Glass UK website and follow the instructions to upload your images.

The images are printed in black and white and turn sepia once fused.

Please note that these decals will not work on iridised glass or glass with a coating.

What works best?

Silhouettes, Line drawings, Maps, Text, High Contrast Photos (grey scale)

TEXT Text **Text** Text Text **Text** Text

What won't work?

Soft photos with little contrast, Images with a grey background, Poor or pixelated images:
